

This is in regard to LPFM stations taking priority over current FM translator service and potentially leaving us without our K-LOVE signal. I am one of the hundreds of thousands of people who listen to and enjoy K-LOVE. It is one of the very few family friendly stations available. I can listen to it with my whole family without worrying about it's appropriateness. There are thousands of listeners in this community who are uplifted daily by the music and messages of the program. The positive family nature of K-LOVE does much to inspire and inform it's faithful, devoted listeners. Because of the large public interest in Albuquerque we would sorely miss this wonderful station. Please don't deny us the joy of listening to one of a few family stations that are left.
